SECURITY & STYLE

NO COMPROMISE REQUIRED

Strong, safe and beautiful, Blockhouse Shutters provide peace of mind and add real value to your property without breaking the bank. All-weather, all-purpose and guaranteed for up to 10 years, they are custom fitted to your doors and windows, providing an elegant, durable, all-in-one alternative to curtains, blinds and all types of security barriers – from bars to expandable gates.

Locally manufactured from premium aluminium with Qualicoat approved powder coating, their versatility and classic simplicity make Blockhouse Shutters the ideal long-term solution to privacy, light control and security needs throughout your home. And the best part? They're there when you need them, but when you don't they glide away, stacking neatly to leave your views completely unobstructed.

-  Full security & LITE option available
-  Internal or external
-  Up to 10-year guarantee
-  Short lead time
-  Eco/enviro friendly materials
-  Locally manufactured

MANY COLOURS

Available in five standard colours (white, light grey, dark grey, bronze and charcoal) as well as a variety of other colours.

A BRAND YOU CAN RELY – AND FEAST YOUR EYES – ON

Named after the King's Blockhouse standing sentinel on the slopes of Table Mountain, Blockhouse Shutters were envisaged as a 100% effective yet attractive security solution, completely replacing the need for additional light and security barriers. Of course they can still be combined with curtains or blinds, adding that crucial layer of security with the bonus of adjustable light filtering.

Designed by industry experts with over 18 years' manufacturing experience, an impeccable track record and an excellent eye for detail, the secure Blockhouse Shutters are also available in a Lite version. Providing a beautiful lockable aluminium barrier with the same clean-lined aesthetic as the original shutters, Blockhouse Lite are set within window and door frames. Without the extra strength of our security product, they are perfect for estates and openings where light control and privacy are needed above security.

INTERNAL
OR
EXTERNAL

EXCEPTIONAL VERSATILITY COMBINED WITH COST-EFFECTIVE LONGEVITY

Usually openings in your home require two products to meet functional and decorative needs. But shutters fulfill both sets of requirements: barely there when stacked, providing a clean yet cosy feel when completely closed, and revealing varying degrees of light and external views when louvered at different angles, they also secure your home, removing the need for unsightly burglar bars or security gates – for years to come.

Blockhouse Shutters are available in five standard colours, as well as custom colours to complement every home's unique look. Weather-resistant, they can be used for interiors and exteriors, withstanding high humidity and bright sunlight whether gracing a bathroom, bedroom, kitchen or veranda – the choice is yours.

The space you entertain and relax in, you want your living room to be as good-looking as it is comfortable. Blockhouse Shutters meet both these requirements. Ensuring a clean-lined contemporary aesthetic that suits most architectural and interior styles, they also provide the perfect lighting – soft and dreamy, brilliantly sun-soaked, or romantically dark for a midday series binge.

LIVING ROOM

VERANDA

Nothing beats a lazy day on your veranda, braai flames at the ready. But cleaning patio furniture beforehand and moving umbrellas to block the glare is so last year.

With Blockhouse Shutters keeping out the elements, your veranda is always guest-ready, just waiting to be opened like a present and enjoyed to the full. Slide back and stack for the full reveal, or adjust for the perfect amount of shade.

Rest assured and dream easy, knowing that robust, quality-controlled Blockhouse Shutters provide total light control and keep you safe, without interfering in any way with the look, style and comfort of your bedroom. Four custom-illustrated vinyl shutter prints are available for children's rooms, revealing dinosaurs, rockets, a unicorn and a magical forest respectively when closed.

BEDROOM

BATHROOM

Providing total privacy with the flick of a finger (or that garden view when you're shaving or doing your makeup), Blockhouse Shutters are made for bathrooms. Handling damp conditions and humidity with casual aplomb, they won't rust or discolour – and they make frosted glass and fabric window treatments (so prone to mould) completely redundant.

Whether your kitchen is Country Farmhouse, Charming Cottage or Modern Masterpiece (or a little bit of everything in between), it's the heart of your home. So give it the look it deserves: Bright, breezy and safe, with plenty of light.

Easy to clean with smooth, wipeable surfaces, Blockhouse Shutters are the hygienic, practical, hardworking choice. And they won't judge your cooking.

KITCHEN

CUSTOMER EXPERIENCE

"I knew I wanted security shutters rather than blinds because I love the clean look, the simple open and shut mechanism, and the secure durable material. But I'd previously had wooden ones in my Durban home, and wasn't sure what to expect with these. Well, all I can say is I'm hooked! The Blockhouse aluminium shutters are incredible and I've never felt safer in my home. They are ridiculously easy to clean - a wipe and some soapy water (at the most) is all it takes to keep these shutters sparkling. As an added bonus, these shutters have been covered in an environmentally-friendly powder coating."

SHUTTER OPTIONS

So you've chosen your colours, and decided on Blockhouse Security Shutters for downstairs and Blockhouse Lite for your loft's dormer windows. But what about that awkward screen door and that kitchen porthole? And your extra wide front door? Will Blockhouse Shutters work?

YES.

Our accredited resellers customise Blockhouse Shutters to suit most openings: From hinged windows, sliding doors and cottage panes through to hard to reach openings – we have a solution for you.
